CARNATION TYPE (fimbriata plena)

This type produces a large double, resembling a carnation in form. The petals are frilled and have serrated edges.

CRISPA OR SINGLE FRILLED

Produces large profusely frilled and ruffled single flowers. We recommend this type in place of the old-fashioned Single.

Carnation

DOUBLE CAMELLIA FLOWERED

This is the true strain of Camellia Flowered Doubles, which we have developed through years of hybridization. The colors are true and uniform; the flowers are of the Camellia type and very large. Our strain produces compact blossoms keeping well when cut.

HANGING BASKET OR LLOYDII (pendula)

This is the Pendula or Lloydii type. It is an unsurpassed strain containing double flowers only. Often hundreds of blossoms to a bulb. Excellent for rock garden work.

CRISTATA OR BEARDED TYPE

A single type, slightly frilled, a coxcomb-like tuft or crest is borne on each petal. A very novel form of the tuberous rooted begonia. Mixed colors only.

MARGINATA

A two-color crisper type flower, available in two combinations:

White with pink edge, also
Salmon with copper edge

BEGONIAS

(cont'd)

MARMORATA

This is a camellia type blossom producing a mottled rose and white blossom.

MULTIFLORA

We have developed an excellent strain of these begonias. They are unsurpassed for bedding or for pot plants. Large numbers of small flowers. This is a mixture of colors from pure white to red.

NARCISSAFLORA OR DAFFODIL

The flower resembles a trumpet daffodil. In a mixture of yellow, salmon, orange, and scarlet.

PICOTEE DOUBLE

A camellia type blossom with the edges of the petals in a different shade of color. Available in a mixture of pastel shades.

ROSE-BUD

A double type resembling rose-buds. Many flowers are colored in two shades. Available in a mixture of pastel shades. Like many roses they are nice in bud, but have a tendency to flatten out later.

HOLLYHOCK

Blossoms are produced along a main stalk as in a hollyhock. Single flowers of mallow pink.

Tubers are round and small, not graded to size.

\$15.00 per 100 \$130.00 per 1000

Hollyhock Begonia

NAMED VARIETIES BEGONIAS

These tubers are not graded to size, but are all large enough to make fine plants.

\$35.00 per 100

AUTUMN GLOW

An extremely large Cristata type, the tufts or crests of which are a deep copper, contrasting with the rest of flower, which is

apricot. The flowers sometimes measure ten inches across. The foliage is very attractive and much more luxuriant than any other tuberous rooted begonia.

FASCINATION

Marginata or Picotee edge. A crispa flower, white with a pink line on the edge.

RED TRIUMPH

A ruffled camellia type of ruby-red with a velvety texture. Very large.

SUNSET

A profusely frilled crispa type, light copper with a scarlet edge.

STARS AND STRIPES

Brick red flowers speckled with white. Blossoms not large, but very numerous.
